The first aid points are intended to assist all persons in danger, using the organisation's own resources or those of organisations operating under agreement with it.

The official doctors are authorised to stop any competitor deemed unfit to continue the race. The rescue staff are authorised to evacuate, by any means they consider appropriate, any runner deemed to be in danger. If necessary, for reasons in the interest of the person being assisted and solely at the organisation's discretion, the official emergency services will be called in; they will take over the management of operations and deploy all appropriate means.

A runner who calls on a doctor or a rescuer thereby submits to their authority and undertakes to respect their decisions.

The entire course will be marked with regulation posts, tape, biodegradable spray paint, branded flags and reflectors.

Art. 9 – Course changes – Cancellation of the race

The organisation, in agreement with and on the instructions of the competent Authorities responsible for issuing the permits and for the related controls, reserves the right to change at any time, without notice, the start time, the course or the location of the first aid and refreshment points.

In the event of adverse weather conditions or force majeure, in accordance with the instructions of the

competent local authorities and where such conditions put the safety of competitors at risk, the start may be postponed or cancelled, the course may be changed and shortened, or the race may be stopped at any point along the route.

Should the race be cancelled, moved to another date and/or in any case not held for reasons of force majeure, including pandemics and natural events, not dependent on and/or not attributable to the will of the organisers, including the withdrawal of the authorisation to hold it by the competent Public Bodies, for any reason whatsoever, the entrant shall have no claim against Base Running ASD or other co-organisers, not even by way of reimbursement of expenses incurred or to be incurred, as signing the entry form also constitutes a waiver of any claim for compensation for damage and/or indemnity and/or any claim for reinstatement and/or satisfaction of any financial loss suffered or to be suffered.

Art. 10 – Course map

The topographic map of each course, in its most up-to-date version, will be available on the event website.

Art. 11 – Insurance

The organisation takes out civil liability insurance covering the entire duration of the event. Competitors take part entirely at their own risk and waive any claim against the organisers in the event of damage and of any further consequences arising after the race.

Art. 12 – Declaration of liability

By registering for La Quattro di Torino, the athlete declares that they are fully aware of and unconditionally accept these regulations, and that they are aware that taking part in La Quattro di Torino and/or in sporting events in general is a potentially risky activity. The athlete also declares that they assume all risks arising from their participation in the event: falls, contact with vehicles, other participants, spectators or others, weather conditions, traffic and road conditions, every kind of risk being well known and assessed. By submitting the online or offline entry form, the athlete releases and discharges the Organisers, the promoting bodies, the City of Turin, the Piedmont Region, FIDAL, the Race Officials Group, all the Sponsors of the event, and the respective representatives, successors, officers, directors, members, agents and employees of the above companies from all present and future claims or liabilities of any kind, as well as for damage to persons and/or property, known or unknown, arising from their participation in the event.

Furthermore, by submitting the online or offline entry form, the competitor declares that they are not aware of any pre-existing medical condition or injury that could put them at risk during the event. The athlete also self-certifies that they have not been subject to any sporting, civil and/or criminal sanctions for doping, and declares that they have not taken – and will not take – any substances included in the prohibited list of the World Anti-Doping Agency (WADA). Please note that, under current federal rules, competitors may be subjected to anti-doping controls by the competent authorities.

Art. 13 – Fraudulent participation in the race – Sanctions

The entrant is responsible for the ownership and safekeeping of their own race bib, thereby acquiring the right to use all the services mentioned in these regulations and communicated subsequently.

Anyone who takes part without being duly registered and without a bib shall, in addition to being held liable for any damage to persons or property, including themselves, incur sporting sanctions within the competence of the federal bodies and may be liable to the criminal penalties laid down for the offence of “theft” (art. 624 of the Italian Criminal Code).

Anyone who takes part without being duly registered with a counterfeit bib, or a bib that in any case does not correspond to the assignment, shall, in addition to being liable as indicated above, incur sporting sanctions and may also be liable to the criminal penalties laid down for the offence of “theft” (art. 624 of the Italian Criminal Code) or, alternatively, for the offence of “fraud” (art. 640 of the Italian Criminal Code).

In cases a) and b), participants may be liable to the penalties laid down for the offence of “failure to comply with orders issued by the Authorities” (art. 650 of the Italian Criminal Code). The above cases can only be established after checking photographic and/or video evidence.

Art. 14 – Information on the protection of personal data

By registering for the event “La Quattro di Torino”, the participants' personal data, including personal details, contact details, and data relating to the entry, the race, times and rankings, are processed by the organising body in compliance with the legislation in force on the protection of personal data, according to the terms, methods, legal bases and retention periods set out in the Privacy Notice made available by the organising body.

Any further processing for direct marketing purposes, sending of newsletters and promotional communications, as well as the disclosure or transfer of personal data to third parties for their own promotional purposes, will be carried out only with the specific, free and separate consent of the data subject, in the cases and in the manner set out in the Privacy Notice.

Art. 15 – Image rights

Taking part in the event “La Quattro di Torino”, as a sporting event open to the public, implies acknowledging that photographs, videos and audiovisual recordings of the participants may be taken during the event, including by photographers, videomakers, members of the press or partners authorised by the organising body.

The images collected in the context of the event may be used and disseminated, pursuant to art. 10 of the Italian Civil Code and arts. 96 and 97 of Law no. 633/1941, for the purposes of documenting, reporting on and promoting the event itself, through websites, social media channels, information materials, the press and other means of communication, without prejudice to the prohibition of uses that harm the honour, reputation or dignity of the person portrayed.

Should the organising body intend to use photographs or video footage portraying an individual participant directly, in isolation and individually for specific promotional or commercial purposes beyond the mere documentation and communication of the event, such use will be subject to obtaining the specific, free and separate consent of the person concerned and/or a specific release, as provided for in the Privacy Notice.

Art. 16 – Final provisions

The Organisation reserves the right to amend these regulations at any time in order to ensure a better organisation of the race, after giving notice thereof and obtaining approval from FIDAL. For anything not provided for in these regulations, the technical and statutory rules of FIDAL and of the G.G.G. (Gruppo Giudici Gare, the FIDAL race officials) apply. Any changes to services, venues and times will be duly communicated to registered athletes or published on the website www.baserunningteam.it.
